**SPACE TECH**  
SOLUTION PROVIDERS - 2020

TUCSON, AZ (March 2<sup>nd</sup>, 2020) – Paragon Space Development Corporation (Paragon) has been recognized by Aerospace & Defense Review as a Top 10 Space Tech Solutions Provider for 2020.

Aerospace & Defense Review is a recognized platform bringing news, trends, insider perspectives, and key analysis of current business and technology issues facing the Aerospace and Defense sectors. Their top 10 list is geared towards helping organizations select the most effective space technology solutions providers to meet their specific needs and achieve their long-term business goals.

Media outlets like Aerospace & Defense Review are becoming an increasingly important voice as space policy takes center stage in the national political conversation.

“We are honored, proud, and extremely enthused to have been selected by Aerospace & Defense Review Magazine as a Top 10 Space Tech Solutions Provider for 2020” said Grant Anderson, President and CEO for Paragon. “The credit really goes to our excellent team of engineers, technicians, and staff who make this company great every day. Looking ahead, we plan on maintaining our successful record of continuing to build life support systems that use next-gen technologies and make deep space private and government initiatives possible.”

With space becoming an increasingly critical national priority, Paragon - with its specialized and innovative approach to life support and thermal control - will continue to maintain and enhance America's competitive edge in space commercially, scientifically, and for our common defense.
